**NOTIFICATION OF AWARD AND REFERAL**

Company: Aqua Plastech

Product: DAMIT Earth Dam Sealer

Description: Sealing of Gary Player No. 18th dam

Dear Sir/Madam:

We had a serious dam wall leak on the 18th hole of the Gary Player Golf Course and Country Club at Sun City, this was a serious threat to a successful Million Dollar Golf Challenge end of 2022 had the wall collapsed due to the weak wall. We urgently needed a solution and came across Damit Dam Sealer.

Aqua Plastech was contacted and Ryan came out several times to survey the dam and formulate a plan to repair the dam wall in time for the event. The repair took 3 days and a remarkable improvement could be seen within 2 days with almost no water seepage anymore! Any other solution would have required the dam to be drained and the flora and fauna destroyed, definitely not an option at the time with the Million Dollar Challenge only a few weeks away and no time for Plan B.

We are very pleased with Damit Dam Sealer, a product that is almost too good to be true! We've seen the results and will definitely recommend Aqua Plastech and Damit Dam Sealer for any leaking dam or repair project.

Sincerely,

A handwritten signature in black ink, appearing to read "Johan Smit".
